

COMPANY **PROFILE**

All air prodcts manufactured by Khedr Trust Co.

INTRODUCTION

Khedr Trust is a leading Egyptian company specialized in manufacturing air conditioning products with more than 11 years experience in the Egyptian market, offers you a Special and varied set of air outlets, dampers, sound attenuators, smoke venting systems, air conditioning ducts and all the necessary accessories.

Khader Trust is ISO 9001, 14001 and 45001 certified, and all air outlets, dampers and sound attenuators have been certified from Intertek according to American codes.

Khedr Trust has been approved in many projects with one of the largest consulting offices in Egypt, such as Shaker, ECG, Sabour, and the Engineering Authority.

خضر تراست شركة مصرية رائدة متخصصة فى تصنيع منتجات التكييف بخبرة أكثر من ١١ سنة فى السوق المصرى, بتقدملك مجموعة مميزة و متنوعة من مخارج الهواء والدنامبر وخوامد الصوت ووأنظمة تنفيس الدخان و داكتات التكييف وكافة الإكسسورات اللازمة.

خضر تراست حاصلة على شهاده الايزو ٩٠٠١ و ١٤٠٠١ و٤٥٠٠١ وأختبرت وتم إعتماد جميع مخارج الهواء والدنامبر وخوامد الصوت من شركة انترتيك طبقا للأكواد الأمريكية.

خضر تراست تم إعتمادها فى مشاريع كثيرة و من أكبر المكاتب الإستشارية فى مصر مثل شاكر و ECG و صبور والهيئه الهندسية.

PRODUCT.. MEGA PROJECTS

OUR VISION

We trust that highly qualified and loyalty employees are able to support and develop Khedr Trust, So we are keen to raise the level of efficiency for all employees of the company to provide the best product and service with Egyptian hands to match and exceed customer requirements.

نحـن نثـق أن الموظفيـن ذوي الكفـاءة العاليـة والـولاء للشـركة قـادرون علـى دعـم و تطويـر خضـر تراسـت ولذلك نحـن نحـرص علـى رفـع مسـتوى الكفاءة لجميـع العاملين بالشـركة لتوفيـر أفضـل منتـج وخدمـة بإيـدى مصريـة لتـؤاءم وتتخطـى متطلبـات العميـل.

OUR MISSION

Strengthening and developing the company's position to become a leading company in the field of manufacturing air-condition products by investing in research and development.

تقوية وتطوير وضع الشركة لتصبح شركة رائدة فى مجال تصنيع منتجات التكييف عن طريق الإستثمار فى البحث والتطوير.

OUR PRODUCTS

We provide wide range of all air products

- · Diffusers & Grills
- Louvers
- Dampers
- Acoustics
- Smoke Management
- Duct Work

1. Square / Rectangular Ceiling Diffuser (SCD&RCD)

Khedr Ceiling diffuser (SCD & RCD) are specially designed for ceiling–mounting applications.

They are suitable for supply & exhaust applications providing a stable pattern of air diffusion at different sizes.

Khedr Models SCD & RCD are found in 1-2-3 and 4 way of air diffusion.

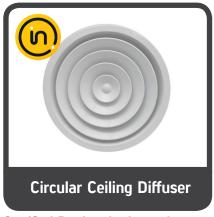

Certified Product by Intertek

2. Circular Ceiling Diffuser (CCD)

Khedr Ceiling diffuser (CCD) are specially designed for ceiling–mounting applications.

They are suitable for supply & exhaust applications especially to suite the round lighting fixtures .

Khedr Models CCD are found in in two types Fixed Diffuser Rings & Fixed Diffuser Cone Rings.

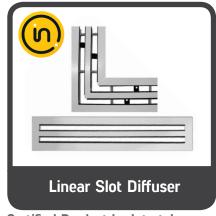

Certified Product by Intertek

3. Linear Slot Diffuser (LSD)

Khedr Ceiling diffuser (LSD) are always considered as the most attractive air distribution devices.

They are suitable specially designed for ceiling or side wall mounted .

Khedr Models LSD are found also mitered and curved section with sizes up to 8-slots with movable deflectors.

Certified Product by Intertek

9. Linear Bar Grill (LBG)

Khedr Linear Bar Grill (LBG) are known with its good appearance and flexibility.

They are suitable specially designed for ceiling or side wall mounted .

Khedr Model LBG are found also mitered and curved section with different bar thickness and spacing also with different deflection angles

Certified Product by Intertek

10. Supply / Return Grills (ALG)

Khedr Supply & Return Grills are designed ventilation applications.

They are found in single defection with horizontal or vertical face blades, also in double defection.

For supply applications can be provided with volume damper to control the amount of air.

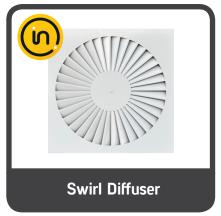

Certified Product by Intertek

6. Swirl Diffuser (SWD)

Khedr Ceiling diffuser (SWD) are specially designed for ceiling–mounting applications.

High induction results in a rapid reduction of the temperature difference and airflow velocity

Khedr Model SW D Ideal for comfort zones.

Certified Product by Intertek

7. Perforated Ceiling Diffuser (PCD)

Khedr Ceiling diffuser (PCD) are designed for ceiling–mounting applications specially for clean room applications .

They are suitable for supply applications providing a stable pattern of laminar air diffusion at different sizes.

Khedr Model PCD are also found in St. Steel material

Certified Product by Intertek

8. Disc Valve Diffuser (DVD)

Khedr Ceiling diffuser (DVD) are designed for ceiling–mounting applications .

They are suitable for Exhaust applications specially for greasy damp air in areas such as toilets, washrooms and kitchens.

Certified Product by Intertek

4. Jet Diffuser (JD)

Khedr Ceiling diffuser (JD) are specially designed for long throw applications.

They are capable to deliver large amount of air at throw reach 200 ft. (60 m).

Khedr Model JD are found in sizes up to $\emptyset 14^{\prime\prime}$, single box can help up to 4 jets.

Certified Product by Intertek

5. Eye Ball Diffuser (EBD)

Khedr Ceiling diffuser (EBD) are also designed for long throw applications.

They are capable to deliver large amount of air at throw reach 100 ft. (30 m).

Khedr Model JD are found in sizes up to ø16".

Certified Product by Intertek

11. Door Grill (DRG)

Khedr Door Grills are designed ventilation applications.

Khedr Door Grills are suitable for doors, walls or partitions.

They are found in single and double Frame.

Certified Product by Intertek

12. Raised Floor Grid (RFG)

Khedr Model RFG is suitable to use with under floor air distribution Data Center, UPS , etc.

Air Flow rate up to 7500 CFM per Panel.

Can withstand up to 2350 Kg/m².

Optional Toothed wheel volume damper can be equipped.

Certified Product by Intertek

Louvers

1. Aluminum Louvers (ALV)

Khedr Aluminum Lovers are designed for ventilation applications .

For supply applications can be provided with volume damper to control the amount of air.

Also can provided with suitable filters and bird screen

Certified Product by Intertek

2. Sand Trap Louvers (STV)

Khedr Sand Trap Lovers are designed specially for fresh air intake applications .

It can also be used in Air Handling Units to filter the sand from Fresh Air Intake .

Certified Product by Intertek

Dampers

1. Blade Volume Damper (BVD)

Khedr Model BVD Volume Damper are designed to regulate and balance the amount of air required.

Khedr Model BVD blades allowing a laminar flow across the blades.

Khedr Model BVD are suitable to use in vertical or Horizontal installation.

Certified Product by Intertek

2. TOOTHED WHEEL VOLUME DAMPER (TDM)

Khedr Models TDM Volume Damper are designed to regulate and balance the amount of air required.

Khedr Model TDM blades allowing a laminar flow across the blades.

Khedr Models TDM are suitable to use in vertical or Horizontal installation.

Certified Product by Intertek

3. Gravity Shutter Damper (GSD)

(Pressure Relief Damper)

Khedr Model GSD horizontal operable shutter Dampers are designed to equalize the pressure across it

The blades are designed and positioned in such away that if the ressure in the room increase the blades automatically lift and open relieving the pressure in the room.

The frame and blades are extruded aluminum alloy and are polyester powder coated.

Certified Product by Intertek

Accustics

1. Sound Attenuator (SAT)

Khedr Sound Attenuator are designed for sound level regulation.

The sound level inside every space are critical factor and shall be below the recommendation of ASHREA recommendations.

Certified Product by Intertek

2. Acoustic Louver (ACV)

Khedr Acoustic Lovers are designed for sound attenuation.

For supply applications can be provided with volume damper to control the amount of air.

Also can provided with suitable filters and bird screen.

Certified Product by Intertek

1. Fire Damper (FDM)

Khedr Model FDM Curtain Bladed Fire Damper are designed to stop Through duct wall penetration.

Khedr Model FDM meets the latest requirements of NFPA 90.

Khedr Models FDM are suitable to use in vertical or Horizontal installation.

Certified Product by UL

2. Smoke Motorised Damper (SDM)

Khedr Model SDM Smoke Damper are designed to prevent the passage of Smoke form one side of fire rated separation to the other.

Khedr Model SDM meets the latest requirements of NFPA 90.

Khedr Models SDM are suitable to use in vertical or Horizontal installation.

Certified Product by Intertek

3. Smoke Vent (SMV)

Khedr Smoke Vents are specially designed for smoke management applications.

They are capable to deliver large amount of air at throw reach 100 ft (30 m).

Khedr Model JD are found in sizes up to ø16".

Duct Work

Khedr Duct work are available in all required gages and materials, and in round and rectangular shapes

1. Galvanized Steel Duct

Khedr Duct Work are available in rectangular, circular shapes.

Khedr Duct Work are made of galvanized steel from 0.7 mm to 1.5 mm Thickness.

Ducts and fittings are available in different lengths, as per customer's request.

All ducts and fittings are produced as per SMACNA duct construction standards

As per SMACNA recommendations

2. Black Steel Duct

Khedr Black steel used in high temperature applications like kitchen ventilation .

Khedr Duct Work are available in rectangular ,circular shapes.

Khedr Duct Work are made of Black steel from 2mm to 3.5 mm thickness.

Ducts and fittings are available in different lengths, as per customer's request

As per SMACNA recommendations

3. Stainless Steel Duct

Khedr Stainless steel used in medical applications to minimize bacteria growth .

Khedr Duct Work are available in rectangular, circular shapes.

Khedr Duct Work are made of stainless steel from 0.5 mm to 1.0 mm Thickness

Ducts and fittings are available in different lengths, as per customer's request.

All ducts and fittings are produced as per SMACNA duct construction standards.

As per SMACNA recommendations

4. Spiral Duct

Khedr Spiral Duct used in for exposed duct work because of its good appearance.

Ducts and fittings are available in different lengths, as per customer's request.

All ducts and fittings are produced as per SMACNA duct construction standards.

As per SMACNA recommendations

5. Flexible Duct

Khedr flexible duct used for connecting the main duct with air outlet plenum box.

Ducts are available in different lengths, as per customer's request.

All ducts and fittings are produced as per SMACNA duct construction standards.

As per SMACNA recommendations

6. Canvas

Available also canvas to eliminate the vibrations of rotating fans to reached the duct work.

Different coating types are available Polyurethane and Silicon and PVC.

Fire rated material are also available for smoke management applications.

As per SMACNA recommendations

7. Waste Chute System

Khedr waste chutes are very simple way for controlling waste for different application.

Waste chutes meets the requirements of environmental health and safety.

Waste chutes can be used for varies applications like Hotels, Hospitals and residential towers.

Waste chutes can be made from Galvanized / stainless steel form different thickness

As per SMACNA recommendations
